Milk	Milk	2 pints of milk	£1.00	<div>View</div>
Walker's Crisps	Crisps	Individual packs of crisps	£0.60	<div>View</div>

Overview

Corner shop specialist is an all in one system designed to make managing and accessing small shops easier and transition shops away from paper management to a fully online system that can be accessed from home for staff and customers.

Objectives

- Create a desktop application to be used in store by managers and by administrators.
- Create a website for customers to access the system to look at shop information.
- Create a staff portal website for staff to be able to access work elements from home.

Core features

- A back office system for managers to manage their staff, stock, deliveries and reservations for products.
- A website where staff can check their shifts and request holiday.
- A website for customers to view shops and products and click and collect products from their local shop.
